## Rhône-Alpes international cooperation and mobility (CMIRA)

Objective of this program: to contribute to international development and the globalization of Higher Education and Research in the Rhône-Alpes region.

### Eligibility criteria

Cooperation projects and applications for grants depend on **the cooperation agreement already signed and still valid** that links the UPMF to a foreign partner institute.  
The CMIRA's call for proposals is launched every year during the first semester.

### Two procedures available

- Total financing of structuring-cooperation projects in the field of training/research or just training or research actions: **"COOPERA" program**.
- Financing with welcome grants for foreign students, PhD students, Post-Doctorate students or lecturer-researchers:

[Accueil Sup/Accueil Doc/Accueil Pro/Explo'ra Doc/Explora Pro programs](#)

### Note:

**Projects but also applications for grants may only be submitted by people who have a project (lecturer-researchers) linked with a foreign partner university. The files are pre-selected by the UPMF then assessed by the CMIRA jury of the Rhône-Alpes region.**  
Priority in terms of financing is given to the [Partner regions](#) [ - 76Ko] of the Rhône-Alpes region.
